

DEFICIT SHRINKS BY ONE MILLION

Treasury Condition Slightly
Improves in February.

MONTH'S SURPLUS \$3,192,072

Receipts for Two-thirds of the Year
Are Twenty-five Million Dollars
Behind Expenditures.

Apologies of the discussion, in the House yesterday, of extravagance in the departments, the Treasury Bulletin of yesterday shows that the Government begins the month of March with a deficit in the Treasury of \$25,465,533, which is \$1,046,895.71 less than it was on the first day of February.

The receipts for the month of February amounted to \$44,698,072.50, while the expenditures aggregated \$41,415,000, showing a surplus for the month of \$3,192,072.50.

Receipts for the Month.

Receipts for the month were divided as follows: Customs, \$21,582,645.73; internal revenue, \$16,714,470.29, and miscellaneous, \$6,310,956.48.

Yesterday closed the eighth month of the present fiscal year, two-thirds of the year having passed by, and the receipts for that period are yet \$25,465,533.36 behind the expenditures. For the eight months the receipts have been \$395,688,219.92, as compared with a total in expenditures of \$391,073,744.78. The expenditures for the same period last year were \$357,674,183.63, or a difference of \$38,014,565.15. This difference is about equally divided in increased expenditures on the civil and miscellaneous list, and for the war and navy.

The expenditures for the navy are about \$14,000,000 greater than they were at this time last year. Over \$2,000,000 more has been spent on the Indians than in the first eight months of the fiscal year 1904.

Better Than Last Year.

One encouraging feature is that the receipts are in excess of those last year. So far there is a difference of about \$3,000,000 in the receipts of this year and those of the previous year.

The fact that Secretary Shaw reduced the deficit during the month of February to the extent of \$1,046,895.71 shows that a strong effort is being made in the departments to reduce the expenditures. Last summer Secretary Shaw predicted that the present year would close with a deficit of about \$18,000,000 or \$20,000,000. There are four more months remaining in the fiscal year, 1905, and from now on the expenditures will decrease with every month, and as the receipts are showing better than they did last year, it is fair to presume that the deficit will be decreased from \$1,000,000 to \$2,000,000 each month.

Based on the figures last month, a safe estimate would be a surplus for the rest of the year of about \$6,000,000, leaving the deficit for the year at about \$19,000,000, or just where Secretary Shaw said it would be.

SEEKS PROFESSIONAL CAREER

MISS SADIE JULIA GOMPERS.

Daughter of Samuel and Mrs. Gompers, Who Has Attracted Much Attention as a Singer and Is Studying in New York.

NEW YORKERS WILL DANCE CLAD IN KNICKERBOCKERS

The New Yorkers in Washington and their friends, will hold a grand inaugural fancy dress carnival and masque reception on Friday, March 3, at the Masonic Temple.

The management is under the direction of William C. Connor. The New York delegation in Congress and the governor of the State are invited.

The floor committee will be attired in knickerbockers.

THREE STRIKES SETTLED IN COAL REGIONS

WILKESBARRE, Pa., March 1.—The troubles at several mines have been settled.

The strikers at the Hollister & Bowman colliery went back to work, having adjusted their grievances; the Kingston Coal Company men managed to settle the several grievances which they have had for some time, the company granting concessions, and the striking driver boys and others at the Cox & Co. mines went back to work.

SONS OF BOWDOIN HOLD ANNUAL BANQUET

The Alumni of Bowdoin College, in Washington held their annual association banquet last night at the Raleigh Hotel.

Reed and Frye and Chief Justice Fuller were in the past always to be found gracing the board, but last night the only one present was Senator Frye. Speaker Cannon was present for a short time and was heartily received.

The dinner was given in honor of the twentieth anniversary of President Hyde, who is usually present at these dinners.

JUDGE PARKER WINS HIS FIRST LAW CASE

ALBANY, March 1.—A victory for ex-Chief Justice Parker in his first case before the court of appeals is involved in the decision handed down by that court yesterday, denying the motion of John M. Bowers, Judge Parker's opponent, to amend the remittitur in the recently argued case of Reich vs. Dyer.

Gompers' Daughter Will Go on the Concert Stage

Has Studied Several Years in Washington and New York—Her Voice a Soprano of Power and Sweetness.

Miss Sadie Julia Gompers, daughter of Mr. and Mrs. Samuel Gompers, is attracting much attention in the local music world and promises to add another to the list of Washington singers on the professional concert stage.

After four years of vocal study in Washington, Miss Gompers has become the pupil of Paul Savage in New York, where she goes each week for her tuition. Her voice is a soprano of much sweetness and power and the progress she has made in the past few years augurs well for her contemplated professional career.

Miss Gompers is quite young, being still in her teens, and has been a prominent factor in entertainments in Washington for several years. Her decision to take up a professional career was made after her pronounced success here and the ready development of her voice.

In spite of her youth, Miss Gompers has filled church positions with much success, but is not connected with any choir now, preferring to devote her entire time to study. Before appearing in concert it is her desire to complete her course with Mr. Savage and for that reason no definite arrangements have been made.

Miss Gompers is the daughter of Samuel Gompers, president of the American Federation of Labor.

ARCHBISHOP KEANE PAYS TRIBUTE TO PRESIDENT

Declares Mr. Roosevelt Is Possessed of
Sterling Honesty and Absolute
Fearlessness.

Catholics are talking today of the high compliments paid President Roosevelt last night by Archbishop Keane, of Iowa, at the Carroll Institute banquet. He said Theodore Roosevelt was the truest of true Americans, possessed of sterling honesty and absolute fearlessness.

Bishop Keane spoke of the strength of manhood and the work Carroll Institute is doing, concluding:

"I am glad this banquet takes place in inauguration week when the American people are giving the highest compliment in their bestowal to the truest American man I know. God bless Carroll Institute and bless that man of sterling honesty and absolute fearlessness in what he believes to be right, Theodore Roosevelt."

Henry W. Sohn, chairman of the banquet committee, introduced those who took part in the remainder of the program. Arthur W. Porter rendered a bass solo; Charles J. Murphy and Dr. Edward Bedloe told interesting stories; Joseph L. Battle sang a tenor solo, and George H. O'Connor sang in his imitable way some coon songs.

Sewing Machine Needles

for all makes of machines at Five Cents per package, and everything else pertaining to sewing machines at greatly reduced prices. Look for the red S. 1716 14th st. n.w. 615 9th st. n.w. 229 Pa. ave. se. 363 M st. n.w. Washington, D. C.; 526 King st., Alexandria, Va.

Millions who were sick---like you, perhaps---
are well today because of Liquozone.
Who else will try it---free?

Three million homes in America have some one whom Liquozone has cured. That is one home in five. Half the people you meet know something of what Liquozone has done. The evidence is everywhere. And it is so the world over, for the sick of nine nations are using Liquozone now. Yet thousands of people are still using drugs to cure germ troubles. We want those thousands to write us. We want to prove, by actual test, what Liquozone can do.

We Paid \$100,000

For the American rights to Liquozone—the highest price ever paid for any discovery used in the cure of sickness. We did this after testing Liquozone for two years, through physicians and hospitals, in thousands of the most difficult cases obtainable. The product is now used the world over in the treatment of germ diseases. In millions of homes it has done, and is doing, what medicine cannot do.

The virtues of Liquozone are derived solely from gas—largely oxygen gas. No drugs, no alcohol—nothing but gas enters into it. The process of making takes fourteen days, and requires immense apparatus. Then we get one cubic inch of Liquozone for each 1,250 cubic inches of gas used. This process has, for more than twenty years, been the constant subject of scientific and chemical research.

The result is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. Yet it is not only harmless, but

HIGH SCHOOL CADETS WILL GUIDE VISITORS

Preparations Making to Assign Boys With Uniforms as Attendants to Strangers—They Will Accompany Visiting Youngsters From the States.

The students of the high schools are busy making preparations for the duties which they will perform during inauguration week.

A number of cadets from each company have or will be chosen to act as guides for the visitors who will be here for the celebration. These cadets will be picked by the officers, who will try to get those who know the most about the city and who possess the most intelligence. They will wear the regulation high school uniform with white gloves and will be in charge of P. S. Hughes, of the Board of Education. Whether the cadets like this idea or not is hard to find out, for some of the are in favor of the movement and others are bitterly opposed to it and declare that in case of their being chosen they will refuse to serve.

The high school boys who are coming here from each State to march in the parade will begin to arrive Thursday, and will continue to arrive until Friday evening. From some of the States as many as thirty-five boys will come where only ten were called for, and in the majority of the States more than the required quota will come. They will make their headquarters in the Franklin School building, and will have a special committee to take charge of them and attend to their needs and amusements.

It is expected that there will be at least 180 boys, and perhaps as many as 200 or more.

A reception will be given these young soldiers Friday night at the Riggs House, when they will be presented to a great many of the officials here, and also to some of the members of the inaugural committee. The boys who arrive early will be put in charge of the local high school boys and sent out to view the city and public buildings.

remarkably helpful. The effects are exhilarating, vitalizing, purifying. Even a well person feels its instant benefit. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is life to an animal, but deadly to vegetable matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. For that reason medicine is almost helpless in any germ disease, while Liquozone is almost certain.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed the disease must end, and forever. That is inevitable.

Asthma
Anemia
Bronchitis
Blood Poison
Bright's Disease
Bowel Troubles
Coughs—Colds
Consumption
Croup
Constipation
Catarrh—Cancer
Dysentery—Diarrhea
Dandruff—Dropsy
